

Tane's Tree Trust

NATIVE TREES FOR THE FUTURE

ROBERT MCGOWAN

on behalf of **TANE'S TREES TRUST**
wishes to invite you to a one-day workshop
on supporting environmental sustainability
through successfully planting and managing
indigenous trees for multiple uses.

Tane's Trees Trust was established in 2002 as a non-profit Charitable Trust focused on encouraging the use of New Zealand indigenous tree species for biodiversity, landscape enhancement, cultural benefits and providing the option for sustainable production of high-quality timber and other resources. The Trust's vision is "To see the majority of New Zealand landowners successfully planting and sustainably managing indigenous trees for multiple uses by 2020"

**29 JAN
2019
9:30am
to 4pm**

**Whakatau by
Maungaharuru
Tangitū Trust
Venue 1 - Lake Tūtira
Venue 2 - Holts Forest
Arboretum (Tūtira)**

*Estimated travel time from:
Wairoa [60min], Central HB
[90min], Hastings [60min]*

Who should attend:

Key people who work in environmental sustainability and management or working on any 1 Billion Trees programme related initiatives, In the rohe of Kahungunu

What to bring:

Casual dress with good walking shoes, hat and raincoat. It's good to come prepared.

What you will get from attending the workshop:

An improved understanding on the establishment and management of native forestry that can provide both production opportunities and sustainable conservation benefits within our productive landscapes.
